EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Carol D. Laherty on 12/15/05.

The application has been amended as follows:

IN THE CLAIMS

1. Claim 25 has been rewritten as follows:

25. The nucleic acid-lipid particle of composition of claim 1 or claim 20, wherein Y iscomprises a member selected from the group consisting of lysine, arginine, asparagine, glutamine, derivatives thereof and combinations thereof.

2. Claim 56 has been rewritten as follows:

56. The method of introducing a nucleic acid into a cell of claim 33 or claim 51, wherein Y iscomprises a member selected from the group consisting of lysine, arginine, asparagine, glutamine, derivatives thereof and combinations thereof.

Art Unit: 1633

The following is an examiner's statement of reasons for allowance: Applicant's argument overcomes the basis of rejection of claims 12 and 43 for double patenting. Further, after the telephone interview with Ms. Laherty listed above, the amendment language, also listed above, is deemed to overcome the lack of clarity in claims 25 and 56. Lastly, the Examiner maintains that the claims as written are free of the art and allowable for reasons of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 1-3 and 5-63 are allowed.
